## Clinical Trial Design

**Dr. med. Susen Burock**

Charité Comprehensive Cancer Center

19 May 2021 | 16 to 17 (CET) | Webinar

### Planning to do clinical studies?

Clinical studies can be as diverse as the questions they seek to answer. The design and choice of the right clinical trial format are crucial to achieving their goals.

In the **SPARK Europe Webinar, Susen Burock**, coordinating physician and expert of the clinical trial unit of the Charité Comprehensive Cancer Center, will walk us through the design and methodology of clinical trials, from those “designed to learn” to real life situations.

In this online lecture, you will gain insight into the following questions:

- What is the gold standard in clinical trial design?
- What are the scopes and limitations?
- What are innovative designs such as umbrella, basket or platform trials?

**Online via [GoToMeeting](#) | Please register [here](#)**
